

NOMADE

Considering its moderate price and exceptional value there really is no secret to why the NOMADE has tremendous popularity. Continuing with this tradition, the 1985 NOMADE exceeds every expectation. Look at the smooth clean INEXTERNAL™ BRAZE frame, the internal mounted AUTO-LUBE brake cable, check the alloy rim, a tremendous value on a quality European bicycle in this price range, and there is more... WEINMANN brakes, THUN BETA II alloy cotterless crankset, COSMOS alloy stem and HURET derailleur are but a few of the refinements that place this bicycle in a league by itself. The 1985 NOMADE, the ultimate recreational bicycle, value packed, affordable and European in every sense.
