Fork Blades

The prime determining factor in how a bicycle will handle, the fork must be manufactured for precision and durability. That's why True Temper fork blades are crafted with the same quality workmanship as our Custom Performance™ tubing line.

"RC" Series Fork Blades Butt Circumference is 2.9367"

"AT" Series Fork Blades Butt Circumference is 3.1416"

Your Distributor Is: (213) 540-1552
HENRY JAMES BICYCLES, INC
704 Elvira Avenue
Redondo Beach, Ca. 90277

For protection during shipping, each tube is individually wrapped in plastic and packaged in double-walled corrugated containers. Custom-designed tubing, including chrome moly steel and several alloys of solution heat treated aluminum, is available by special order based on volume considerations.
